DON'T MISS YOUR BOAT!

INSPIRING GROWTH THROUGH ACTION OF CHANGE

I came from a "Boat people" refugee background, a war-torn country and a family in turmoil. My life journey taught me to embrace change and to overcome fear by taking courageous actions. Getting out of my comfort zone has helped me successfully turn my life around. I can help you do the same!

Through my journey, you will discover three principles to live by to ensure that you do not **NOT** miss **YOUR** boat of opportunity to improve your career, business and purpose in life.

- 1. Build Your Own Boat-** (B.Y.O.B) Prepare yourself as well as possible when dealing with change.
- 2. Get On Your Boat** - Taking small risks, avoiding a collection of missed opportunities. .
- 3. Get Off Your Boat** - How to let go of the lingering fears to reach the desired destination.
